

Summary Report

Item #	Description	Value (GBP)	Country of Origin	Commodity Code
1	Keypad	28.69	USA	84716060
2	Tochpad	16.39	China	84716070
3	LCD Monitor	18.23	Swedan	85285299
4	Processing Unit	98.43	Poland	84715000

Specific Rules:

ASSEMBLED PLACE = UK

Final Product = Computer

Commodity Code = 8471 30 10

Specific Rule of Origin

8471 = CTH except from non-originating materials of heading 84.73; or MaxNOM 50 % (EXW)

According to CTH: CTH means production from non-originating materials of any heading, except that of the

product; this means that any non-originating material used in the production of the product

must be classified under a heading (4-digit level of the Harmonised System) other than that of

the product (i.e. a change in heading); Since the commodity codes in the bill of materials are not equal to the first four

digits of the final product's commodity code, this product can be considered as UK origin (assembled in the UK).

Note: Please note that this calculation assumes that all items within the EU/UK have valid preference origin statements from the suppliers.

Alternatively, According to MaxNOM Rule:

Total Value: 161.74 GBP

(Calculated using today's exchange rates to convert

non-local currencies into GBP, the currency of the assembled country)

1 China: 10.14%

1 Poland : 60.85%

1 Swedan: 11.27%

1 USA: 17.74%

Exchange Rates Used:

1.22 USD= 1 GBP

13.71 SEK= 1 GBP

5.08 PLN= 1 GBP

As based on the findings, the MaxNOM percentage is less than 50%. Hence, this product can be considered as UK origin.
