

 TradeSphere Global – Trade with Intelligence

 Full Overview & Walkthrough Script

◆ Part 1: Introduction

"Welcome to TradeSphere Global — your AI-powered gateway to mastering global trade compliance with confidence, speed, and intelligence."

Backed by KrisLynx LLP, the platform is engineered to empower traders, simplify complex compliance processes, and elevate operational efficiency — all in one place.

About KrisLynx & TradeSphere Global

KrisLynx LLP is your innovation partner in the AI/IT frontier. With intelligence, insight, and integrity — we craft tomorrow's solutions.

From enterprise-grade AI to regulatory compliance tools, we build systems that simplify and scale businesses worldwide.

TradeSphere Global is our flagship product —

An AI-powered trade compliance platform designed for UK, EU, Japan, and global operations.

About TradeSphere Global

AI That Understands Trade

We simplify the complexities of global trade using powerful AI — so you spend less time searching, and more time scaling.

Our HS code intelligence can read your BOMs and map tariff risks in seconds.

Tariff Navigation Simplified

Thousands of tariff codes?

TradeSphere gives you an intuitive, user-first interface — built for traders, not just tech users.

- ✓ Accuracy
- ✓ Speed
- ✓ Familiarity

Real-Time Regulatory Awareness

Stay alert with live updates on FTAs and tariffs across the UK, EU, and Japan.

Never miss a change that affects your supply chain or product eligibility.

Compliance with Confidence

- ISO-compliant
 - SSL-secured
 - Designed with data accuracy at its core
- Because your compliance is our highest priority.

TRADESPHERE
GLOBAL

RKLS

FROM A DREAM

At the top-right, meet Klyn AI, your trade-savvy chatbot —
Ask anything about tariffs, FTAs, HS codes, or dashboard usage.

Feature-by-Feature Breakdown

AI HS Code Lookup

- Search by commodity name or code
- Auto-matching HS codes across UK, EU, and Japan
- Real-time suggestions + Klyn AI support at your service

Expired Commodity Details

- Shows outdated tariff codes
- Sends alerts to update or take corrective action

EUGB EU-UK Agreement Check

JP UK-Japan Agreement Check

- Designed for single BOM files
- Quickly assess product FTA eligibility

For multiple BOMs — head to Upload BOMs

Upload BOMs Page: Bulk Smart Automation

- Upload one or more BOM files
- AI handles:
 - HS classification
 - Preferential origin mapping
 - FTA rule validation

Export Dashboard Integration

- Your results show up in the Export Dashboard
- Data auto-categorized into four shifts per day:
 -  Morning
 -  Afternoon
 -  Evening
 -  Night

Each shift includes:

- ☒ BOM-specific reports
-  Abstract shift report (with file path, origin status per country)

All reports are:

-  Saved in a secure server
-  Downloadable from C:/TradeSphere Global/{username}/

You can filter by date, manually trigger processing, and download reports anytime.

Supplier Declaration Portal

A fully automated system for Supplier Declaration Exchange.

❖ Three Main Routes:

1. Login / Sub-login

- Create up to 5 team logins under your username
- Each login manages its own supplier declarations

2. Register

- New users & suppliers can sign up easily

3. Supplier Login

- Suppliers access their page using credentials shared via email

Send Email Page (Mass Declaration Requests)

Send personalized bulk emails to suppliers to request:

- Consent uploads
- Commodity forms
- Preferential origin proofs

Email tool includes:

- ✓ Pre-filled subject & message
- ✓ Commodity form template (Google Sheet)
- ✓ Attachments: help videos, guides
- ✓ Login link for suppliers

Fully AI-powered:

- Bulk recipient fetching from Excel or CSV
- Smart email grouping, preview, and tracking

Supplier Side Page

Suppliers receive an email with:

- Their username/password
- Login link to upload documents

Inside, they'll find:

1.  Consent Upload Form
2.  Commodity Form Link Pasting (Google Sheet)
3.  Google Sheet Template — must make a copy and follow guided video

They also get two tools:

-  EU-UK Preferential Origin PDF Generator
-  UK-Japan Preferential Origin PDF Generator

These reports can be uploaded in the form sheet as official proof.

Back to Dashboard

- Track all emails sent
- View suppliers' responses
- See uploaded declarations and documents
- Everything is traceable, secure, and structured

Full Video Walkthroughs Available

“This was your supercharged overview — but the learning doesn’t stop here.”
