Final Commodity Code(s): 84339000

- Rule of Origin for 84339000: CTH; MaxNOM 50 % (EXW); or RVC 55 % (FOB).

According to CTH: CTH means production from non-originating materials of any heading, except that of the product. This means that any non-originating material used must be classified under a heading (4-digit level of the Harmonised System) other than the final product (i.e., a change in heading). Since the commodity codes in the bill of materials differ from the first four digits of the final product's code, this product qualifies for UK-Japan Preferential Duty (Zero or reduced rate).

Alternatively, this product may qualify under the MaxNOM Rule.
